STATE HIGHLIGHTS IN CONSERVATION: *Idaho*

Conservation in Idaho

In Idaho, the majority of land acquired for conservation is funded with federal dollars. Using these and other sources, a total of 230,943 acres were conserved in the state from 1998-2013. From 1998-2013, nearly \$198.95 million was invested in land conservation and natural resource protection.

Spending for acquisition by level of government, 1998-2015*

State Investment in Land Conservation

Idaho funds conservation mainly with general fund appropriations and revenue from the sale of hunting licenses in the state.

- Idaho Department of Parks and Recreation - manages 30 state parks and recreational trailways. Funded mainly through state general fund.
- Idaho Department of Fish and Game - maintains wildlife management areas across the state for hunting, fishing, and public enjoyment. Funding for land acquisitions comes from the sale of hunting licenses.

Local Investment

Idaho enables local governments to issue general obligation bonds, and to increase property taxes to fund conservation.

Four conservation measures were passed by voters since 2001, including one in Boise, two in Blaine County, and one in Kootenani County. In 2013, voters in Blaine County approved a two-year property tax levy to raise an estimated \$3.5 million to fund recreation and improvements to the Wood River Trail.

Federal Investment

The following federal programs and federal agencies have contributed funds and conserved land in Idaho:

- Bonneville Power Administration
- Natural Resources Conservation Service
 - Farm and Ranch Lands Protection Program
 - Grassland Reserve Program (GRP)
 - Wetlands Reserve Program (WRP)
- U.S. Bureau of Land Management
 - Federal Land Transaction Facilitation Act
 - LWCF Federal
- U.S. Forest Service
 - Forest Legacy Program (FLP)
- U.S. Fish and Wildlife Service
 - LWCF Federal
 - Migratory Bird Conservation Fund (MBCF)
 - North American Wetlands Conservation Act
 - Section 6 Grant
- U.S. National Park Service - LWCF Federal

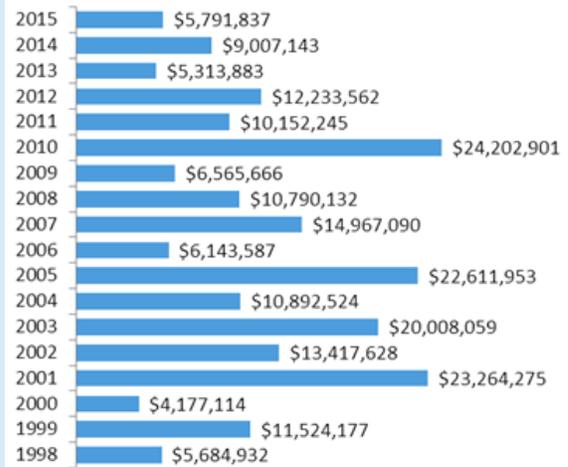

Note: Parcel-level spatial data is not available for all lands included in the Conservation Almanac. This map includes a subset of land conservation activity (i.e. 58 percent of acres, 49 percent of dollars) shown as points. Data current through October 2016.

*Statistics are generated using data collected for and included in the Conservation Almanac. Almanac data collection efforts focus on land conserved using public dollars: contributions funded by private and non-governmental organizations may not be comprehensive.

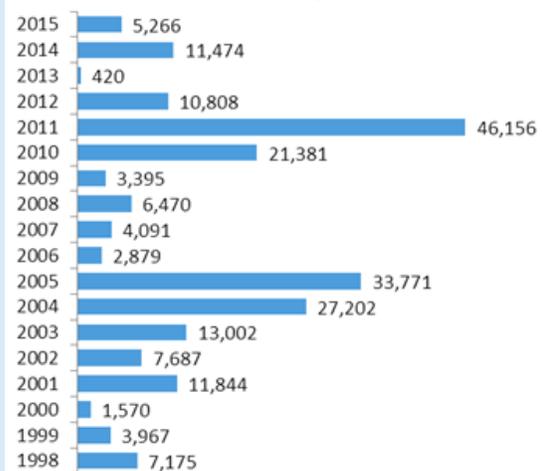

Conservation Snapshot

The tables below provide a snapshot look at land conservation activity through the most common available metrics: public dollars spent and acres conserved. These charts omit parcels not classified as fee simple purchases or conservation easements.

Public Dollars Spent Annually for Conservation, 1998-2015*

Total Acres Conserved Annually, 1998-2015*

The Trust for Public Land creates parks and protects land for people, ensuring healthy, livable communities for generations to come.

THE CONSERVATION ALMANAC

A comprehensive database of land conservation and conservation funding in America, the Conservation Almanac provides a context for assessing impacts of conservation and the growing conservation finance movement. The Almanac offers information on public dollars spent and acres conserved, details on local, state, and federal conservation programs, and provides geospatial mapping of conserved land.
